

PROUD TEK

EST. 2008 · SHENZHEN

COMPANY PROFILE / 2026

RFID Cards, Manufactured.

A manufacturer's catalogue

Since 2008

we have manufactured RFID cards for clients who can't afford to be wrong — transit authorities, banks, luxury hotels, and one carmaker whose cars lose nothing in translation.

Proud Tek · Shenzhen, China

Three numbers

that explain why procurement teams keep coming back.

17

YEARS

manufacturing RFID cards out of one factory in Shenzhen.

10

LINES

fully automated, running across PVC, wood, PLA and metal-hybrid.

10M

CARDS / MONTH

rated PVC capacity, with 300K wooden cards on top.

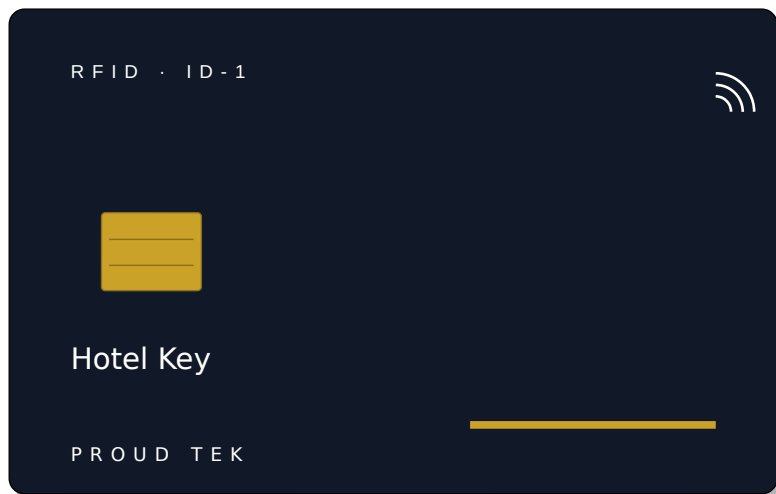

Five cards.

One factory. One quality system. One point of contact.

04	Hotel Key	VingCard · Salto · Onity · Saflok	p.05
05	Bus Ticketing	Mifare Classic / Plus / DESFire EV3	p.06
06	Access Control	LF · HF · UHF — banks, airports, gov, mining	p.07
07	Wooden Eco	FSC-grade — cherry, walnut, bamboo, maple	p.08
08	PLA Bio	Corn-starch / sugarcane bioplastic	p.09

Hotel Key Card

The first physical touchpoint of your brand. Engineered to drop into every major hospitality locking system without integration risk.

Plant-derived bioplastic — corn starch, sugarcane and other renewables. Drop-in replacement for PVC.

SPECIFICATIONS

MATERIAL	Polylactic Acid (PLA)
FEEDSTOCK	Corn starch, sugarcane, cassava
END-OF-LIFE	Industrial-compostable → CO ₂ + H ₂ O
FORM FACTOR	Standard ID-1, drop-in PVC replacement
CERTIFICATION	ASTM D6400 / EN 13432 (in process)

Shenzhen

Ten lines under one roof

Inlay layout, antenna winding, chip bonding, lamination, die-cut, print, encoding and packing — every stage runs on the same floor, audited under one quality system, by operators who've been with us for years.

Five checkpoints.

One-hundred-percent inspection.

ISO 9001 certified, audited annually.
